

CDM Co-ordinator

“ The Construction (Design and Management) Regulations (NI) 2007 place a legal duty on clients to appoint a CDM Co-ordinator on all notifiable projects.”

Do you comply with CDM?

With our significant experience in the construction industry, Allied Safety Services can provide you with a CDM Co-ordinator service that ensures you have the necessary practical help and expert advice as and when required and more importantly where you need it.

Achieve Peace of mind with Allied Safety Services

Allied Safety Services is experienced in providing CDM Co-ordinator services for a wide range of client projects of varying size and complexity. Appointing Allied Safety Services as your CDM Co-ordinator ensures you have peace of mind knowing that essential health & safety duties are being met. We work closely and in partnership with clients, designers and their project teams, liaising with the Health & Safety Executive on behalf of our clients where necessary.

Our standard service offer includes:

- Notifying the HSE of a project.
- Provide competent advice to the client regarding their duties under CDM 2007.
- Co-ordinating the design team to ensure the designers are addressing their duties under CDM 2007.
- Identify and collating the pre-construction information, advising the client of the suitability of this information.
- Assisting the client in ensuring competency of all duty holders, and suitability of the principal contractor's management arrangements and resources.
- Reviewing and advising the client on the adequacy of the Initial Construction Phase Plan and its development as the project progresses.
- Compiling the Health & Safety File.

We can also provide:

- Advice on the resources and health & safety competency needed by any principal contractor or sub-contractor you consider employing.
- Act as a 'third party' to carry out periodic reviews of your contractors and sub-contractors health & safety competence on site.
